PROFESSIONAL SUMMARY

Outcome-oriented Product Owner with 7+ years of experience delivering B2B and B2C digital products across agritech, wellness, retail, automotive, and loyalty platforms. Skilled in product strategy, AI-assisted rapid prototyping, Agile delivery, user research, and cross-functional collaboration, with a strong human-centered mindset and a passion for solving complex problems through practical digital solutions.

WORK EXPERIENCE

OCP Singapore

Product Owner (B2B/B2C Digital Agricultural Product)

Sep 2025 - Present

- Built and validated a crop monitoring product prototype using Replit and ChatGPT, conducting field tests, together with user interviews with farmers to evaluate usability, crop monitoring workflows, and feature effectiveness in actual farming environments.

Seven Peaks Software

Product Owner (Client Project: B2C Wellness Service)

Feb - Aug 2025

- Designed the user journey for the entire service, including the user flow in the application and the operation flow with the designers and clients.
- Implemented Stripe for seamless credit/debit card and PromptPay payments.

Product Manager (Client Project: SCG - Nexter Living)

Jul 2023 - Feb 2025

- Collaborated with the BD team to craft client proposals through contract signing.
- Reduce Manual Work by up to 30% by revising the supply chain operations flow and replacing some manual tasks with automation.

Product Owner (Client Project: Rever Automotive)

Jun 2023 - Nov 2023

- Collaborated with system architects to streamline operations and integrate 3rd-party systems, including SAP Financial Module and the logistics system.

Freshket (Polar Bear Mission Company Limited)

Product Owner

Sep 2022 - May 2023

- Within four months, redesigning the sales process and developing internal sales solutions reduced CRM's annual cost by more than 50% or 2 million baht.

Chef Yim / Cho Yim (Central Food Retail B2B Platform)

Product Owner Manager

Oct 2021 - Aug 2022

- Re-designed the order flow with 3rd-party developers, increasing the order success rate to 80%.
- Increased sales revenue by 10X daily within 3 months by managing a scrum team to build a sales solution in one month.

ExxonMobil Limited (Esso Smiles Thailand)

System Change Coordinator

Aug 2017 - Sep 2021

- Designed the end-to-end earn-and-redeem points flow for the portable EDC system.
- Conducted an online usability testing event with 12 pump attendants and four territory managers to gather feedback on the new Android EDC.

EDUCATION

M.S. Counseling Psychology

Jan 2025 - Present

Ramkhamhaeng University

B.Eng. in Information and Communication Engineering

Aug 2013 - May 2017

Chulalongkorn University
